

## Not Included on GitHub:

1. The “login” CSV file has not been uploaded on GitHub due to privacy purposes. – make sure you have this CSV file as this will be used to fetch the user details.
2. Haven’t added the images (as they provide no functionality to the program)

Ensure to refer to the documentation (OCR NEA 51427\_6117\_Rushabh\_Dharamshi\_ProgrammingProject.pdf) section titled "Development Stage 1 (Designing the Dashboard UI)" for clear instructions on utilizing the images while creating the program.

### **Preconditions:**

Make sure you have the DB Browser (SQLite) app on your computer.

Have a set of images that you would like to use.

Make sure the images are in the same directory as your code.

Make sure to have an IDE – I used PyCharm for this project.
